

I-Pad Basics for Supplemental Situational Awareness

"VMC Training and Recognition in Multiengine Operations," will precede the main topic. An electrical engineer and pilot, Eric uses the iPad when flying his C-182 on business around the country. When not flying, Eric owns and runs a shortwave radio manufacturing company in Watsonville. This in-depth seminar will show you how to obtain, navigate and understand the best tools available to supplement your situation awareness, including flight planning, charts and navigation aids.

Directions: US-101 South, take exit 326A to merge onto Airport Blvd. Turn left to stay on Airport Blvd., turn right to Skyway Blvd. The commuter terminal will be on your left and parking is across the road.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
